Road closure on C643 Coast Road for Surface Dressing Works

Work is due to start on Friday 6 June to surface dress a large portion of the C643 Coast Road. To allow the work to be carried out safely and swiftly, it will be necessary to close sections of the road to through traffic on a number of dates when the surface dressing work is underway, line painting is being carried out, and cat's eyes (road studs) are being renewed. Access to properties will be maintained at all times.

The work, which is weather dependant, will be carried out in phases (see overleaf). Road closures will only be in place for a few hours at a time on the following dates:

- 6 June (Stud Removal) – Evening/ Overnight Works – 19:00 – 05:00 – Road Closure
- 9 – 12 June (Main Dressing) – Daytime Works – 06:00 – 16:00 – Road Closure
- 23 – 25 June (Lining/ Road Stud Replacement) – Evening/ Overnight Works – 19:00 – 05:00 – Road Closure

A fully signed diversion route will be in operation for the duration of the works. The County Council has made every effort to notify all properties along the impacted section of the highway.

The work is expected to cost approximately £409,000 and will be carried out by Norfolk County Council's Community and Environmental Services Department and their contractors Tarmac and Keir Highway Services. Norfolk County Council appreciates everyone's patience while this essential road maintenance work is carried out.

This year, 280 miles of Norfolk's roads will get a new seal to extend the life of the road. The new seal consists of a thin layer of bitumen and chippings which is laid onto the road. This helps prevent water penetration and helps stop potholes opening up.

The action of vehicles passing over the new surface plays an important part in helping the new surface to settle in. People are urged to drive slowly and considerately across the new surface until it is bedded in, and highway teams return a few days later to sweep up the loose stones.
